DSA03-Natural Language Processing

List of Lab Program

25. Utilize the GPT-3 model to generate text based on a given prompt. Make sure to install the OpenAI GPT-3 library in python implementation.

Code:

```
from transformers import pipeline
generator = pipeline("text-generation", model="gpt2")
prompt = input("Enter a prompt: ")
result = generator(
    prompt,
    max_new_tokens=60,
    num_return_sequences=1,
    do_sample=True,
    temperature=0.7,
    pad_token_id=50256
)
print("\nGenerated Text:")
print(result[0]["generated_text"])
```

Output:

```
Generated Text:
write about a women empowerment campaign, and the media says it's a campaign of violence against women.

So, is it a campaign of violence against women?

No. The media is trying to cover it up. I don't think there is any evidence that it is a campaign of violence against women.
```
